AND LONG LASTING PERFORMANCE.

PROUDLY CRAFTED IN KILKENNY SINCE 1989

CRAFTED IN KILKENNY. DESIGNED FOR LIFE.

iMAGE Showers began in 1989 in a humble haybarn in Co. Kilkenny, a place renowned for Irish craftsmanship. From these modest beginnings, we have grown into one of Ireland's leading shower door specialists, known for precision engineering, timeless design and an unwavering commitment to quality.

For over 35 years, our story has been one of resilience, innovation, and dedication to doing things the right way. From classic ranges like the Ultra, Diamond and Allure, to modern innovations such as the i6, i3 Easy-Fit and the i7, our products are trusted by generations of homeowners and professionals alike.

What sets iMAGE apart is not just what we make, but how we make it. We remain the only shower door manufacturer still producing in Ireland, allowing us to maintain full control over quality, design and sustainability. Our latest offerings – from the sleek iDrain system to our slate trays and Opti-White glass colour range reflect our commitment to evolving with our customers' needs while remaining rooted in quality and craftsmanship.

With a newly upgraded factory and showroom in Kilkenny, we are building for the future while staying true to our heritage. Every iMAGE product is thoughtfully designed to enhance daily wellness, transforming a functional space into a sanctuary. Whether it's a bespoke shower solution or a ready-to-fit door, our work is driven by a passion for elevating everyday moments.

At iMAGE Showers, we believe in more than just shower doors. We believe in beauty, longevity and responsibility – to our craft, our customers and our planet.

GUARANTEED FOR LIFE

At Image, every product detail and feature is designed around quality, performance and reliability. Our insistence on manufacturing excellence gives us the confidence to offer a lifetime guarantee across our product ranges.*

PEACE OF MIND: Lifetime Guarantee*
Spare Parts Available | Extension Profiles Available

iSHIELD PROTECTIVE GLASS COATING

WITHOUT iSHIELD

Without iShield protective coating, soap and water residue can bond to the surface of the glass resulting in a build up of grime.

WITH iSHIELD

The iShield intelligent surface helps prevent the build up of limescale and soap deposits on the glass surface. This hydrophobic coating ensures that water droplets simply roll away from the surface.

GO BESPOKE

If standard size options don't suit, we can create a made-to-measure solution precisely for your requirements.

SUSTAINABILITY COMMITMENT

At iMAGE, sustainability is not a trend, it's a responsibility we take seriously. Here's how we're making a difference:

- Solar-Powered Production:** Our entire Kilkenny factory is powered by renewable energy, with 110 solar PV panels on our roof generating clean electricity for our enterprise.
- Smarter Packaging:** We've redesigned our packaging to minimise material use and ensure it's fully recyclable, reducing waste across the supply chain.
- Product Circularity:** Returned products are broken down so individual components can be reused or recycled, avoiding landfill and giving materials a second life.
- Longer Product Lifespan:** We offer spare parts for every model, allowing customers to maintain their shower doors for years rather than replacing them prematurely.
- Eco-Friendly Choices:** From LED lighting throughout our premises to using a sustainable printing partner we are committed to making more environmentally friendly choices.

Our goal is clear: to create beautiful, durable products that respect the planet, not just today, but for future generations.

OUR VALUES

1. IRISH CRAFTSMANSHIP

Proudly designed and manufactured in Ireland, our products reflect the skill, care and precision of true Irish craftsmanship.

2. BUILT TO LAST

We engineer our products to endure in style, structure and sustainability. We believe that true quality stands the test of time.

3. THOUGHTFUL INNOVATION

We don't innovate for the sake of it. Every feature, finish and function is designed with purpose, enhancing both form and usability.

4. SUSTAINABILITY COMMITMENT

From solar-powered production to recyclable packaging and design for product longevity, we are committed to reducing our environmental impact.

5. EVERYDAY WELLNESS

We create shower spaces that go beyond the functional. We aim to promote a sense of calm, beauty and wellbeing for our customers.

6. INCLUSIVITY AND INTEGRITY

We strive to serve a wide audience from discerning homeowners to professional tradespeople, with honesty, respect and reliability.

WE ARE NOW A PROUD MEMBER OF GUARANTEED IRISH

At Image, we are a proud member of the Guaranteed Irish network, which has been the national symbol of trust in business in Ireland for 50 years.

Our membership in Guaranteed Irish means we are committed to supporting sustainable jobs, contributing to local communities, and demonstrating Irish provenance.

As a Guaranteed Irish member, we use the distinctive logo to show our commitment to the Irish economy.

iIMAGE BESPOKE

Image Showers are experts in the design and manufacture of bespoke showering solutions, created precisely to client specification. Our in-house manufacturing team have decades of specialist knowledge in crafting made to measure solutions for more unusual shower design requirements. Image products are of enduring quality and built from the finest raw materials at our production facility in Kilkenny, Ireland. A lifetime guarantee extends across our products, with spare parts readily available for ultimate peace of mind*.

Image is the bespoke shower door specialist – we are the preferred supplier for many prestigious hotel & commercial projects nationwide. Our expert design, measurement and installation service is trusted within the industry.

Image offer a complete end-to-end service - from initial site visit, design concept development, to product manufacture, through to installation and after-sales maintenance.

FROM CONCEPT TO COMPLETION, WE'RE THERE

Liss Ard Estate, West Cork

INFORMATION & MAINTENANCE

PRODUCT

All products are manufactured in accordance with ISO 9001 and EN 14428 and utilise toughened safety glass to EN12150-1 class A standard. Aluminium sections are extruded to BS 1474 from alloys complying with BS 6463 and coated to BS 6464. Doors and enclosures have been tested in accordance with EN 14428 and are suitable for use with modern power showers. The position of all shower valves in the brochure are for illustrative purposes only.

CE AND EN INFORMATION

The CE marking on The Company's products is a declaration that the product complies with the essential requirements of the European health, safety and environmental protection legislation.

The CE marking on a product indicates to government officials that the product may be legally placed on the market in their country. This ensures the free movement of the product within EFTA and the European Union single market and permits the withdrawal of the non conforming products by customs and enforcement authorities.

The European Union's "new approach directives" are mandatory on all member countries to enact through national legislation. This legislation requires manufacturers to display a CE marking on their product, packaging and accompanying literature. Where a new approach directive is in force, it is (with few exceptions) an offence to place a product on the market without a CE marking.

Often consumers will consider CE marking on a product as an indication of conformance to laid down minimum standards and therefore, a minimum level of safety which other products may lack. CE marking is for many consumers a "Symbol of Safety"

CLEANING

It is important to clean your shower door and tray after every use. Here is what we recommend:

- Wipe down all the glass and metal parts with a soft cloth.
- Do not allow lime scale to build up in hard water areas.
- Ensure that any residual water on the glass is removed after every use.
- Clean the glass regularly with soapy water.
- Do not use any abrasive products on any surfaces.
- Install enclosures in a well ventilated area.
- Always read the instructions on the packaging.

Bathroom products are vulnerable to acid attack and some strong household cleaners including strong disinfectants, denture cleaners, hair dyes, wine making chemicals and photographic chemicals may contain acid. These materials may have a varying effect on the surface, from black spots/streaks (which cannot be removed) to pitting the surface. Contact with these materials should be avoided.

SHOWER ENCLOSURE ADJUSTMENT

This is the min and max adjustment of the actual enclosure. These are the adjustment dimensions of the actual door excluding the tray. Therefore, these are the dimensions to follow when installing an enclosure in a wet room application without a tray.

The guide below may be helpful in taking measurements to determine the shower door or enclosure size required. Dimensions given in this publication are in millimetres, are approximate and may vary with adjustment. They are subject to change without notice.

Please note that when a tray is fitted, it is essential that the tray is level before any doors or enclosures are fitted. Uneven trays may lead to leakages and would invalidate our guarantee.

DELIVERIES

Deliveries should be inspected immediately after receipt and any discrepancies should be notified within 7 days. Notifications received after this period will not be accepted.

Goods supplied are subject to carriage charge* ask The Company for details*. Lead time direct to a reseller is 3 working days.

RETURNS

No return of goods will be accepted by The Company without prior authorisation and compliance with our returns procedure.

In the event that the customer returns any goods which are not defective, such goods will be accepted by The Company only if they are returned to The Company in an undamaged, resalable condition, which requires that the goods are unused and contained within their original, unopened and undamaged packaging.

In the event that the customer wishes to return non-defective goods to The Company following the expiry of the 21 day period, The Company will have absolute sole discretion as to whether it shall offer a refund to the customer in respect of such goods.

In relation to any returns made, The Company will deduct 40% of the price paid for the relevant goods and The Company will deduct a discretionary restocking fee (which may exceed 40% of the price paid for the relevant goods) plus the cost of carriage, from the sums refunded to the customer, in order to cover The Company's administration and restocking costs.

The company will not accept any return of (or issue any refund or credit in respect of) non-faulty goods more than 30 days following the delivery date.

If a return of goods has been agreed by The Company, it will arrange a collection date with its courier. If The Company or its courier is unable to collect the goods on the date proposed by the courier due to any act or omission by the customer, then an administration fee will be payable by the customer (which The Company may deduct from any sums refunded to the customer).

GENERAL

All products are supplied complete with full installation instructions and the necessary fixings. Check with your dealer for accurate matching of material samples. Product descriptions do not imply the use of precious or valuable materials.

Our policy of reviewing product design and development on a regular basis means The Company reserve the right to change product specifications and prices without notice.

Glass shattering and parts subject to wear are not covered by the lifetime guarantee.

Trays shown in this catalogue are for illustrative purposes only.

Images are for illustrative purposes only. The colours and finishes shown in the catalogue are as accurate as possible within the limits of the printing process. The positioning of all shower heads in the brochure is for illustrative purposes only. All descriptions, specifications and particulars contained in this brochure are intended merely to represent a general idea of the products described herein and none of these form part of any contract to give rise to any independent or collateral liability upon The Company.

Prices are correct at the time of print with the rate of VAT which applies at the time. Due to circumstances beyond our control, prices may be altered including changes to the rate of VAT.

Due to our policy of continuous improvement, we reserve the right to amend prices, specifications and designs without prior notice. Images are for illustrative purposes only. The colours and finishes shown in the catalogue are as accurate as possible within the limits of the printing process. All descriptions, specifications and particulars contained in this brochure are intended merely to represent a general idea of the products described herein and none of these form part of any contract to give rise to any independent or collateral liability upon the company.

LIABILITY

In the event of any breach of The Company's obligations, the remedies of the customer will be limited through damages.

Except as set out in these conditions, all warranties, conditions and other terms implied by law (whether by statute, common law or otherwise), are to the fullest extent permitted by the law, excluded from the contract.

The Company's maximum aggregate liability arising out of or in connection with a contract, whether in a contract, tort, misrepresentation under statute or otherwise, howsoever caused including any liability under an indemnity contained in the contract and/or arising from a breach of, or a failure to perform or defect or delay in performance of, any of The Company's obligations under the contract and/or any defect in any of the goods supplied under the contract and/or any use made or resale of any such goods by the customer or of any product incorporating any of such goods shall be limited to the aggregate price paid or payable under the contract.

The company shall not have any liability to the customer for any loss of profit (direct or indirect); loss of revenue, loss of production or loss of business (in each case whether direct or indirect); loss of goodwill, loss of reputation or loss of opportunity (in each case whether direct or indirect); loss of anticipated saving or loss of margin (whether direct or indirect); liability of the customer to third parties (whether direct or indirect); consequential or special loss arising out of or in connection with the contract, whether in contract, tort or misrepresentation under the statute or otherwise, howsoever caused including by negligence and/or arising from a breach of, or a failure to perform or defect or delay in performance of, any of The Company's obligations under the contract.

Nothing in the contract shall operate to exclude or restrict The Company's liability (if any) to the customer for breach of its obligations arising under section 12 of the Sale of Goods Act 1979; for breach of its obligations arising under section 2 of the Supply of Goods and Services Act 1982; for death or personal injury resulting from its negligence; for its fraud or fraudulent misrepresentation; or for any matter for which it is not permitted by the law to exclude or limit, or to attempt to exclude or limit, its liability.

i7 Frameless Double Hinge Doors Corner Access

QUALITY GUARANTEED

Image products are manufactured in accordance with ISO 9001 and EN 14428 and utilise toughened safety glass to EN12150-1 class A standard.

Aluminium sections are extruded to BS 1474 from alloys complying with BS 6463 and coated to BS 6464. Doors and enclosures have been tested in accordance with EN 14428.

The CE marking is a declaration that the product complies with the essential requirements of the European health, safety and environmental protection legislation.

This brochure was designed with green energy, and it is printed on FSC® Certified and Carbon Balanced paper.

Each print run gets registered with its own reference code - the print company would source this and add it in when they submit a request to carbon balance the paper associated with the print run.
