

DILUSSO

BATHROOMS

OUR STORY

At Dilusso Bathrooms, we have built our brand around total commitment to elegant and innovative design, product quality, reliability and ultimate customer satisfaction.

We help you to choose the perfect design to complement your bathroom interiors. Using only the best materials, we are committed to product excellence in design and reliability.

Whatever your space, budget or lifestyle, DiLUSSO Bathrooms has something to match your aspiration, be it traditional or contemporary.

Why choose DiLUSSO?

Because we make it simple to create a bathroom that feels stylish, practical and perfectly suited to you.

OUR ENVIRONMENTAL STATEMENT

At DiLUSSO Bathrooms, we are committed to stylish, high-quality products with a responsible approach to sustainability.

As part of the Image Showers family, we are working to reduce our environmental impact through thoughtful sourcing, recyclable packaging where possible, efficient operations and long-lasting products.

We are also working towards ISO 14001 certification and a formal carbon footprint assessment, and have recently achieved Bronze EcoVadis certification.

Luxury design should look beautiful and support a more sustainable future.

SANITARYWARE COLLECTION

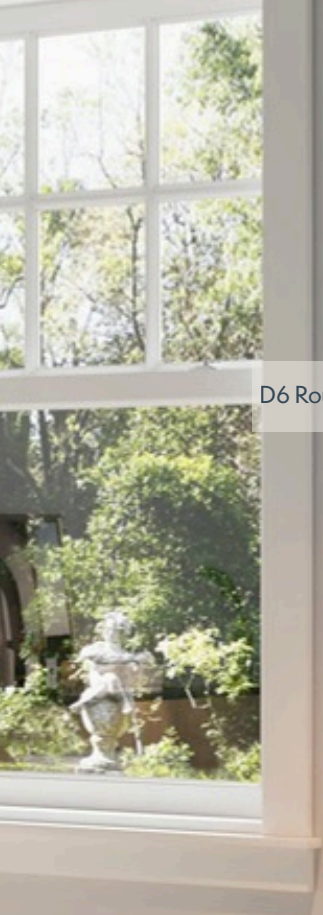

Our collection of ceramics is thoughtfully curated, with high quality of design and the latest innovation being the guiding principles.

Our diverse collection is designed to be the centre focus of any bathroom, no matter what your style or taste.

Our toilet pans now feature a rimless pan allowing for easier cleaning and removing the need for a rim.

WHY CHOOSE A RIMLESS TOILET?

Why Choose a Rimless Toilet?

Rimless toilets are designed to make your bathroom cleaner, healthier and easier to maintain. With no hidden rim, there are fewer places for dirt, limescale and bacteria to build up.

Key Benefits

Superior Hygiene

No rim means no hidden areas where dirt and bacteria can collect, helping to keep the toilet cleaner for longer.

Easy to Clean

The smooth, open bowl design makes cleaning quicker, easier and more effective.

Better Flush Performance

Engineered for powerful, even water flow that reaches every part of the bowl.

Water Efficient

Designed to deliver a strong flush while using less water, helping to improve everyday efficiency.

Built to Last

Made using high-quality materials and smart design for long-lasting performance and durability.

BATHSCREENS

A STYLISH AND VERSATILE BATHSCREEN COLLECTION

Crafted in the heart of Kilkenny, our bathscreens are made with toughened safety glass and feature an easy-clean coating for everyday convenience. Backed by a lifetime guarantee, each of the 14 elegant designs in the Image Showers range offers a stylish and practical solution for over-bath showering.

With six dynamic colour options to choose from, it's easy to find the perfect finish to complement your bathroom style.

SHOWERS

DESIGNED TO WORK BEAUTIFULLY TOGETHER

DiLUSSO is the sister brand of Image Showers, created to bring together premium bathroom furniture, brassware, sanitaryware, baths, radiators and accessories with a refined, design-led finish.

As Ireland's only certified shower door manufacturer, Image Showers brings something truly unique to the DiLUSSO collection — the ability to pair beautifully crafted shower enclosures with a complete bathroom range.

From the first choice of brassware to the final shower enclosure finish, every detail can be considered together, creating a bathroom that feels coordinated, intentional and complete.

The Image Showers i9 Luxury Collection is the perfect partner to the DiLUSSO range, with premium finishes designed to complement matching brassware, towel warmers, mirrors and accessories throughout the room.

Whether the look is warm and classic, sleek and contemporary, or bold and architectural, the i9 range helps bring the full bathroom scheme together with style, balance and precision.

ONE BATHROOM. ONE FINISH. ONE COMPLETE LOOK.

With Image Showers and DiLUSSO, customers can create a bathroom where every key detail works beautifully together.

From shower profiles and handles to taps, wastes, towel rails and accessories, each finish can flow seamlessly throughout the space, creating a look that feels coordinated, considered and complete.

Whether for a private home, hotel, showroom, interior design project or larger development, this makes it easier to achieve a refined bathroom scheme with confidence.

LUXURY SHOWER ENCLOSURE COLLECTION

BRING COLOUR TO YOUR DREAM SHOWER ZONE

Complete your bathroom with the Image Showers i9 Luxury Collection — the perfect finishing touch to the wider DiLUSSO range.

Designed to coordinate beautifully with DiLUSSO brassware, towel warmers, mirrors and accessories, the i9 collection allows every finish to flow effortlessly through the space. From taps and wastes to shower profiles and handles, each detail can be matched to create a bathroom that feels elegant, considered and complete.

Standing at 2 metres high, each i9 shower door is crafted from 8mm toughened safety glass and finished with our iShield hydrophobic coating to help reduce the build-up of grime and limescale.

Full-length magnetic seals provide a smooth, secure close, while premium components ensure lasting performance.

For enhanced clarity, the collection is also available with Opti-White low-iron glass, creating a brighter, purer finish.

LUXURY SHOWER ENCLOSURES, CRAFTED IN KILKENNY

The Image Showers i9 Luxury Collection is our premium shower enclosure range, designed for bathrooms where finish, quality and detail matter.

Crafted in Kilkenny, each enclosure combines precision engineering with refined design, using toughened safety glass, premium components and elegant detailing to create a shower space that feels beautifully finished and built to last.

Available in six luxury finishes, the i9 collection is designed to coordinate with DiLUSSO brassware, radiators and accessories, allowing every detail to flow seamlessly throughout the bathroom.

ANODISED COLOUR FINISH

Each i9 shower door is made from hardwearing anodised aluminium, chosen for its strength, durability and refined finish. The anodising process protects the aluminium against corrosion, making it ideal for bathroom environments where moisture and humidity are present.

Unlike a surface coating, the colour is embedded into the metal itself, giving each door long-lasting colour stability and a beautifully natural finish.

One bathroom. One finish. One complete look.

 Chrome

 Brushed Brass

 Brushed Nickel

 Black

 Brushed Bronze

 Gunmetal

THE i9 LUXURY COLLECTION

SIX DYNAMIC COLOUR OPTIONS

Available in Brushed Brass, Brushed Bronze, Brushed Nickel, Gunmetal, Black and Chrome, the i9 Luxury Collection is designed to complement the wider DiLUSSO range.

Match your shower enclosure with DiLUSSO brassware, wastes, towel warmers, mirrors and accessories to create one seamless bathroom scheme.

BRUSHED BRASS

Warm, rich and timeless. A perfect match for classic, boutique and high-end interiors.

BRUSHED BRONZE

Soft, warm and understated. Ideal for bathrooms with natural textures, stone tones and contemporary luxury styling.

BRUSHED NICKEL

Elegant and subtle. A refined alternative to chrome, perfect for calm, neutral and sophisticated schemes.

CHROME

Clean, bright and classic. A versatile finish that works beautifully across modern and traditional bathroom designs.

BLACK

Bold, architectural and contemporary. Ideal for statement bathrooms and strong contrast interiors.

GUNMETAL

Dark, sleek and modern. A premium finish that brings depth and sophistication to the bathroom.

A COORDINATED FINISH ACROSS THE WHOLE BATHROOM

The beauty of the i9 range lies not only in the enclosure itself, but in how effortlessly it completes the wider DiLUSSO bathroom.

With finishes designed to coordinate across shower profiles, brassware, radiators and accessories, every detail works together with ease. The result is a bathroom that feels polished, refined and complete from every angle.

FROM CONCEPT TO COMPLETION, WE'RE THERE

Together, Image Showers and DiLUSSO offer a complete bathroom solution — from premium shower enclosures crafted in Kilkenny to carefully selected bathroom products designed to complete the space.

For homeowners, designers, retailers and project teams, it means one coordinated look, trusted quality and expert support from start to finish.

INFORMATION & MAINTENANCE

PRODUCT INFORMATION

DiLUSSO products are carefully selected to meet high standards of quality, design and everyday performance.

All products must be installed in accordance with the instructions supplied and, where required, by a suitably qualified person. This includes plumbing, electrical installation, wall fixing, sealing and ventilation.

Products should be checked before installation to ensure they are correct, complete and free from visible damage. Installation is deemed acceptance of the product's quality and suitability.

Product positioning shown in lifestyle imagery is for illustrative purposes only. Final installation should be determined by the installer, taking into account product instructions, site conditions, water pressure, electrical zones, wall type and all relevant regulations.

As part of our policy of continuous improvement, DiLUSSO reserves the right to amend specifications, dimensions, finishes, designs and prices without prior notice.

CE & COMPLIANCE

Where applicable, DiLUSSO products are supplied in accordance with relevant European health, safety and environmental requirements.

CE marking, where shown on a product, packaging or accompanying literature, confirms compliance with the applicable European legislation for that product category.

This may apply to certain electrical products, mirrors, mirrored cabinets, heated products or other regulated items.

Not all bathroom products require CE marking. Where CE marking is not applicable, products are supplied in line with relevant product standards and manufacturer requirements.

Electrical products must be installed by a suitably qualified person and positioned only within the appropriate bathroom zones.

CLEANING & CARE

To keep your shower door, enclosure and tray in the best condition, clean and dry after use where possible.

Wipe glass and metal parts with a soft cloth and remove any residual water to help prevent limescale build-up, particularly in hard water areas.

Clean glass regularly with warm soapy water. Do not use abrasive cleaners, scouring pads or harsh chemicals on any surface. Always ensure enclosures are installed in a well-ventilated area and follow the care instructions supplied with the product.

Bathroom products may be damaged by acidic substances and strong household cleaners, including some disinfectants, denture cleaners, hair dyes, wine-making chemicals and photographic chemicals. Contact with these materials should be avoided, as they may cause staining, black marks, streaking or surface pitting that cannot be removed.

SHOWER ENCLOSURE ADJUSTMENT

Adjustment measurements refer to the minimum and maximum adjustment of the shower door or enclosure only, excluding the tray. These dimensions should be followed when installing an enclosure in a wet room application without a tray.

All dimensions shown are in millimetres, are approximate and may vary with adjustment.

They are subject to change without notice.

Where a tray is fitted, it must be level before any door or enclosure is installed. An uneven tray may cause leaks and could invalidate the guarantee.

IMPORTANT PRODUCT INFORMATION

DiLUSSO products must be installed in accordance with the instructions supplied and, where required, by a suitably qualified person. All plumbing, wall preparation and electrical work must be completed in line with current regulations.

Before installation, please check that all products are correct, complete and free from visible damage. This includes furniture, sanitaryware, brassware, mirrors, cabinets, accessories and radiators. Dimensions, colours, finishes and product details should be confirmed before fitting, especially where products are being installed into a pre-designed or measured space.

Fitting the product is deemed acceptance of its quality, suitability and condition.

Images shown in this brochure are for illustrative purposes only. Lifestyle settings may include styling items and may not always represent the exact product, finish, size or configuration listed.

FURNITURE INFORMATION

DiLUSSO bathroom furniture is designed for normal bathroom environments and should be installed in a dry, well-ventilated space.

Furniture must not be exposed to excessive moisture, standing water, direct shower spray or harsh cleaning products. Any splashes or spills should be wiped dry promptly with a soft cloth.

Wall-hung furniture must only be fitted to a suitable wall capable of safely supporting the combined weight of the unit, basin, worktop and contents. The installer is responsible for selecting appropriate fixings based on wall type and site conditions.

Where furniture is installed beside a bath, shower or wet area, it must be protected from regular water exposure. Poor ventilation or water damage may affect the product finish and warranty.

BASIN & WORKTOP INFORMATION

Basins, countertops and worktops should be checked before installation for size, finish and compatibility with the chosen furniture unit.

Natural and stone-effect finishes may vary slightly in tone, pattern and texture. These variations are part of the character of the product and are not considered defects.

INFORMATION & MAINTENANCE

BASIN & WORKTOP INFORMATION continued

All joints, cut-outs and exposed edges must be properly sealed during installation to prevent water ingress. Do not use harsh chemicals, abrasive cleaners or scouring pads, as these may damage the surface finish.

MIRROR & CABINET INFORMATION

Mirrors, LED mirrors and mirrored cabinets must be installed in accordance with the supplied instructions. Where electrical connection is required, installation must be carried out by a suitably qualified person.

Electrical products must be fitted in the correct bathroom zone and in compliance with current electrical regulations. The installer is responsible for ensuring the chosen location is suitable.

Mirrors and cabinets should not be exposed to excessive moisture or direct water spray. Good ventilation is required to help reduce condensation and protect the product over time.

BRASSWARE & ACCESSORY INFORMATION

Brassware, valves, taps, wastes and accessories should be installed by a suitably qualified person and in accordance with the instructions supplied.

Please ensure the product finish is suitable for the intended installation area. Special finishes should be cleaned only with warm soapy water and a soft cloth. Do not use abrasive cleaners, bleach, descalers, solvents or harsh chemicals, as these may damage the finish.

Finishes may vary slightly between product categories and manufacturing batches. Where exact finish matching is required, this should be checked with your retailer before ordering or installation.

GENERAL

All DiLUSSO products are supplied with installation instructions and, where applicable, the necessary fixings. Products should be installed by a suitably qualified person and in accordance with the instructions provided.

Please check with your retailer or dealer for accurate colour, finish and material matching before ordering or installation. Product descriptions, finish names and colour references are for guidance only and do not imply the use of precious or valuable materials.

Images shown in this catalogue are for illustrative purposes only. Colours, finishes and textures are reproduced as accurately as possible, but may vary due to photography, digital display and the printing process. Actual products may vary slightly in tone, texture or appearance.

All dimensions, descriptions and specifications are intended as a general guide only and do not form part of any contract or give rise to any independent or collateral liability upon the company.

Due to our policy of continuous product review and improvement, DiLUSSO reserves the right to amend specifications, finishes, designs and prices without prior notice. Prices are correct at the time of print and include VAT at the applicable rate unless otherwise stated. Prices may be subject to change due to circumstances beyond our control, including changes to VAT, supplier costs, freight or currency fluctuations.

Products shown in lifestyle imagery may be used for styling purposes and may not always represent the exact product, size, finish or configuration listed.

LIABILITY

In the event of any breach of the company's obligations, the customer's remedies shall be limited to damages only. Except as expressly set out in these terms, all warranties, conditions and other terms implied by statute, common law or otherwise are, to the fullest extent permitted by law, excluded from the contract.

CARE & INSTALLATION NOTE

Bathroom furniture and products are designed for use in well-ventilated bathroom environments. They must not be exposed to excessive moisture, standing water or harsh cleaning chemicals. Spills and splashes should be wiped dry promptly with a soft cloth.

To protect the finish and ensure long-term performance, all products must be installed, used and maintained in accordance with the instructions supplied. Do not use abrasive cleaners, scouring pads, bleach, solvents or harsh chemicals.

RETURNS

Goods cannot be returned without prior authorisation and must follow our returns procedure.

Non-faulty goods may only be accepted for return if they are unused, uninstalled, resaleable and in their original unopened, undamaged packaging.

DiLUSSO will not accept returns of products that have been installed, altered, damaged, used, or removed from their original packaging in a way that prevents resale.

Where a non-faulty return is accepted, a restocking charge may apply, along with any carriage or collection costs. Returns outside the agreed returns period may be refused.

If an authorised collection cannot be completed due to any act or omission by the customer, an administration or failed collection charge may apply.

Special order, made-to-order, bespoke, discontinued or clearance items may not be eligible for return unless faulty.

FURNITURE CARE & INSTALLATION

DiLUSSO bathroom furniture is designed to bring lasting style, quality and functionality to the modern bathroom. Each piece is carefully selected for its premium finish, practical design and reliable everyday performance.

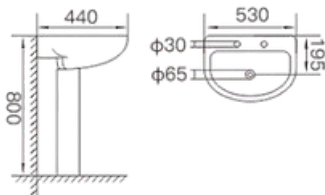

To preserve the quality of your furniture, products must be installed in accordance with the instructions supplied and fitted in a well-ventilated bathroom environment. Avoid excessive moisture, standing water, direct shower spray and harsh cleaning products.

Any splashes or spills should be wiped dry promptly with a soft cloth. Proper installation, ventilation and regular care will help protect the finish and ensure long-term performance.

This brochure was designed with green energy, and it is printed on FSC® Certified and Carbon Balanced paper.
